Setting Up Application Environment

Docker Installation

Team ID	PNT2022TMID07598
Project Name	Skill and Job Recommender Application
Team Members:	KEMBADEVI M,KARTHIKA A,MAHESWARI M,MALATHI S

Step 1:

Go the official Docker website: **https://docs.docker.com/desktop/install/windows install/**

Step 2:

Click that button (Docker Desktop for Windows) and download will start andit takesfew minutes to complete.
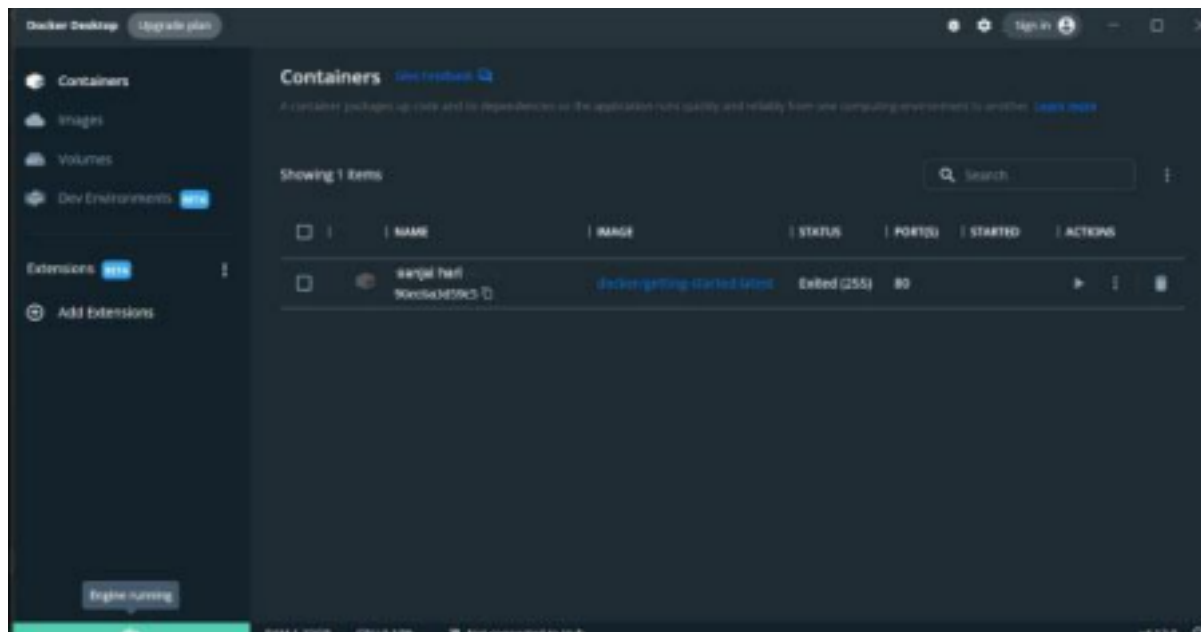

Step 3:

Go to downloads in browser (or) type **ctrl + J**, it will navigate to download pageanddouble-click the particular docker file.

Step 4:

Now Installation is complete. This icon was added in your desktop. Double-click theicontostart the docker app, you can register and login that app to access those credentials.

Step 5:

Docker will start correctly, the left bottom side was shown in green color, docker will show the status of docker app working successfully.

Step 6:

Finally, the docker is installed successfully.
